Expert packaging tips:

1. Choose a plain, sturdy box big enough for the item and padding.
2. Keep the item from touching the outer box by using padding like crumpled newspaper, grocery bags, or bubble wrap.
3. Give the box a shake: does the item move? If so, use more padding!
4. Make sure the box won't come open by sealing it with 2-inch wide tape.
5. Attach the label below by taping down each edge with clear tape.
